

# Learn with ENER-G Rudox

ENER-G Rudox can provide AIA certified, continuing education credits under the CES (Continuing Education System).

These seminars provide not only valuable knowledge in these “forefront current topics” in the construction sector, they can also provide Certified PE credits to help towards maintaining your professional accreditation and continued learning.

**These CPD's are available on the following subjects:**

- **Combined Heat and Power - CHP (AIA Certified)**
- **Tri-generation - CCHP**
- **Renewable CHP Options**
- **Microgrids & District Energy Systems**

For more information and to arrange a Lunch & Learn event please contact us:
